

# Tulsa Health Department Now Offering Disinfection Byproducts (DBP) Testing

The Tulsa Health Department's Environmental Water Lab is now certified to offer disinfection byproducts testing for trihalomethanes (THM) and haloacetic acids (HAA).

The lab can also provide the following tests:

- Total Organic Carbon (TOC)
- Nitrates and nitrites
- Bacteria
- Metals
- Solids
- Lead and copper
- Biochemical Oxygen Demand (BOD)

Please contact the lab at 918.595.4200 for instructions before collecting DBP samples and for more information on additional tests available.
